

The background is a solid dark blue. It features several sets of concentric circles in a lighter blue color. A single dashed line in the same lighter blue color runs diagonally from the bottom left towards the top right, passing through the center of the slide.

Where are the different materials and
systems in the research lab?

Mr. Mauricio Gonzalez

**Where are the different materials
and systems in the research lab?**

Do Now

- Research (10th grade)
 - Take out composition notebooks.
 - Prepare one question about the lab report due tomorrow.
 - Work on lab report until I begin answering questions.

**Where are the different materials
and systems in the research lab?**

H.W.

- So far:
 - Professional e-mail
 - USB thumb drives
 - Composition notebooks
 - Other supplies
- Tomorrow:
 - TYPED Lab Report
 - With worksheet attached to the back with a staple or paper clip.

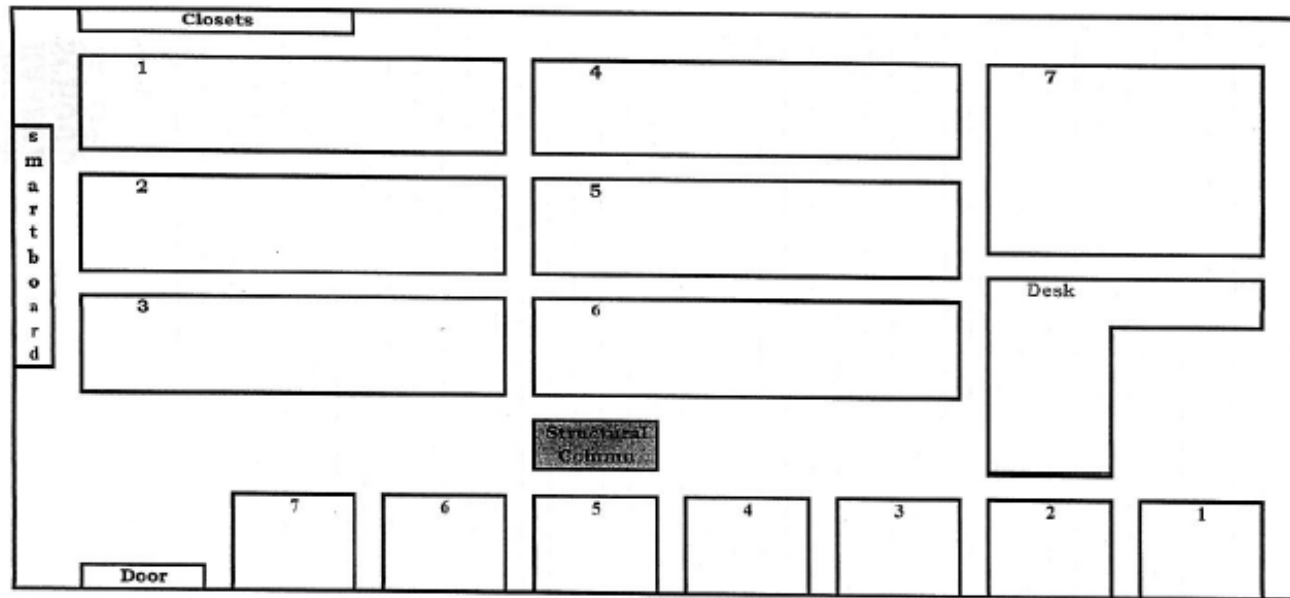

**Where are the different materials
and systems in the research lab?**

Objectives

- I can locate research equipment in room 320.
- I can describe the equipment on a room map.

**Where are the different materials
and systems in the research lab?**

Room 320 Map

MBRP - Closet Supply Chart for room 320

Name:
Class:
Notes:

Where are the different materials
and systems in the research lab?

Activity

- Take out your room maps and be prepared to look around the room and listen to instructor regarding the whereabouts of the research equipment.
- In your sheets, write some names of the equipment.
- Things may be moved around but I will notify you.
