CAREER DNA
Career Mapping

Identify individual who we are mapping their high school and college career. _____

	1ST INTEREST	2ND INTEREST	3RD INTEREST
Career DNA			
Assessment (Pages 2 – 8) You need only to complete the assessment on pages 4 and 5. Record your interests			
Validate your Assessment (pages 9 – 14) Review each page; check off all the items that describe the individual. Your top three pages should match your original Career DNA			
Choosing High School Courses (Pages 15 – 17) Fill in each box with at least 3 courses that are listed in your interest areas.			
Choosing a 2 Year College Major (Pages 19 – 21) Choose at least three, 2 year college majors that match your interest areas.			
Choosing a 4 Year College Major (Pages 19 – 21) Choose at least three, 4 year college majors that match your interest areas. **Include the Career DNA code along with the college major.**			
Military Careers Choose 2 enlisted military job titles for enlisted €and 2 military job titles for (O) officer. (Pages 24 – 26)			
ONET JOB TITLES (Pages 22 and 23) Identify 3 job titles that begin with the combination of the three interests. For example, if you are ACE, then list jobs for ACE, CAE, EAC, etc. any combination of the three letters. Go to http://www.onetonline.org/find/descriptor/browse/Interests/ to input your letters.			

Note: If your career interests touch each other in this picture, you will have many job title choices. For example, I am an SEC. All three of my letters touch each other. If your career interests do not touch each other but jump over an area, you will have less job titles to choose from.
